Explanation

A **USGA® Course Rating** is an evaluation of the playing difficulty of a golf course compared with other rated courses, for the purpose of providing a uniform basis on which to compute USGA® Handicaps. A USGA® Course Rating is a service mark owned by the USGA and may be used only in connection with the USGA Handicap System.

A **USGA® Yardage rating** is the evaluation of the playing difficulty of a course based on the USGA® Yardage Rating Formula. It is the score a scratch golfer, when on his game, is expected to make when playing a course of average difficulty.

A **USGA® Course Rating** is determined by applying the playing length of the course to the Yardage Rating Formula to obtain a USGA Yardage Rating. The USGA® Yardage Rating is then modified by the authorized Golf Association's Course Rating Committee to take into account the obstacle difficulty of the course.

A **USGA® Slope Rating** is an evaluation of the degree of difficulty of the course for golfers with USGA handicaps greater than zero. Average USGA Slope ratings are 113 for men and women.

Computation

$$\text{USGA Yardage Rating} = \frac{\text{Effective Playing Length of course}}{220 \text{ (180 for women)}} + 40.9 \text{ (40.1 for women)}$$

$$\text{USGA Course Rating} = \text{USGA Yardage Rating} + \text{Modification for Obstacles}$$
